SUBJECT: REVISED SCHEDULE OF CIVIL EFFECTS TESTS.

SYMBOL: BMC:RLC

The attached schedule, dated November 28, 1952, of programs, projects, and personnel to be included in the Civil Effects Group for Upshot-Knothole, is included herewith for your review and appropriate approvals of programs and personnel under the cognizance of the Division of Biology and Medicine.

The Test Organization has made an urgent request for a firm schedule to be used in plans and operations. It would be most helpful if your review could be completed on or before Friday, December 5, at which time I plan to be in Los Alamos to review the various programs, and will contact the Division by telephone.
